

ABOUT THE CONFERENCE :

In today's rapidly evolving world, the boundaries between law, science, and technology are becoming increasingly fluid. Innovations that once seemed like the realm of science fiction are now not only reshaping our daily lives but also transforming industries and challenging established legal and ethical frameworks. This exciting convergence demands a new level of interdisciplinary collaboration and understanding.

As technology advances at an unprecedented pace, it intersects with nearly every aspect of our lives, from the ways we communicate to how we tackle global challenges. Scientific breakthroughs are continuously pushing the frontiers of possibility, bringing with them profound questions about their societal, ethical, and legal implications. However, traditional legal systems, designed for a different era, often struggle to keep up with these rapid changes, resulting in gaps and conflicts that urgently require attention.

The conference, "**Beyond Boundaries: Law, Science, and Technology in the Age of Innovation,**" seeks to create a vibrant multidisciplinary platform where experts, Legal practitioners, academicians, Research scholars, technologists, policymakers, Industry professionals, and thought leaders can gather to explore the evolving dynamics between these interconnected fields. By examining the impact of technological advancements such as artificial intelligence, robotics, biotechnology, and cybersecurity, this conference aims to delve into the complex legal and ethical questions that arise as science and technology continue to break barriers and redefine human life.

To provide a platform for experts from diverse fields—law, science, and technology—to share their knowledge and insights, thereby bridging gaps in understanding and identifying where interdisciplinary approaches are needed.

CONFERENCE SUB-THEMES:

- Law in the Age of Technological Innovation
- Data Privacy and Cybersecurity in a Digital Age
- Regulating Artificial Intelligence and Robotics
- Biotechnology, Health Law, and Bioethics
- Intellectual Property Rights in the Age of Innovation
- Digital Transformation and Legal Practice
- Technological Innovation and Environmental Law
- Human Rights in the Technological Era
- Regulatory Sandboxes and Innovation-Friendly Laws
- Tech Ethics and Legal Accountability

- Cybercrime, Digital Forensics, and Legal Responses
- E-Governance and Digital Rights
- Technological Innovations in Education
- Media, Law and Technology

Kindly note :- The above list is not exhaustive and the session Abstract can be on any title related to the theme of the Conference

REGISTRATION FEES :

Indian Participants :

Academicians/Legal Practitioners/ Technology Experts / Expert from Industry :	Rs. 1500/-
Students and Ph. D Research Scholars /	Rs. 1000 /-
Non Presenters /Attendees :	Rs. 800 /-
International Delegates :	\$ 30

Bank Details :

Department of Constitutional Law and Legal Order

Bank Name : State Bank of India • Bank A/c. No. 38527207097

Branch : Gujarat University, Ahmedabad • IFSC Code : SBIN0002651

Registration Form :
