To,

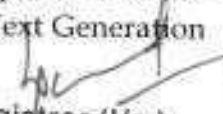

Sub: Next Generation Wi-Fi services of Reliance Jio at Colleges to create Digital Campus.

Respected Sir,

We are holding Pan-India License for implementing 4G telecom network. We are in the advance stage of implementing our project. Reliance Jio has envisaged creation of Digital Revolution by leading a movement to empower millions of Indians with a digital life. Reliance Jio will be a digital eco system, which will provide lightning speed internet connectivity, rich content and innovative services that will radically transform the way we work, live and play.

The Government of Gujarat has provide us a policy framework which enabled us to execute 4G telecom project across the State of Gujarat. Further, for implementation of the digital revolution, we have planned various initiatives, one of which is to connect colleges across India on to a broadband network and offer a bouquet of digital services. This will not only enable the colleges to offer a truly digital campus, but also offer students solutions for enriching their skills. We have already identified colleges which are run under the aegis of various trusts, organizations and State Government. We have requested the Govt. of Gujarat in Ministry of Education to permit us to provide our 4G network services in the colleges which are under the Dept. of Higher and Technical Education of GoG. We are pleased to inform you that the GoG in Ministry of Education have considered our request and informed your college to permit Reliance Jio to set up Next Generation Wi-Fi services in your premises.

In this regard, we would request you to provide us infrastructure support and other permissions mentioned below, free of cost, so as to enable us to set up Next Generation 4G Wi-Fi services at your colleges/ campus.

Registrar (I/c.)
Gujarat University
Ahmedabad-380 009.

1. Infrastructure Support

- Permission to carry out a detailed survey of the campus/ premises to derive a deployment plan for Wi-Fi services.
 - Space and Security to Wi-Fi and other relevant network/ equipment.
 - Stable power supply for all equipment deployed.
 - Use of Poles, Buildings and infrastructure in Institutes campus to facilitate network deployment.
 - Permission to deploy Masts in the event when optical fiber cable is not reachable to the campus.
2. Access to relevant area for installation, maintenance and repair
 3. Facilitation to educate and promote the availability of Wi-Fi services to students and faculty.

It may be noted that Reliance Jio will bear the expenditure for providing all the fiber and equipment to create Digital Campus with the Next Generation Wi-Fi Services. Please note that we will be providing our services at the most competitive price for the use of Wi-Fi services on commercial launch of the same.

We request you to kindly acknowledge on the second copy of this letter as acceptance of providing us facilities mentioned as above so as to implement the Next Generation Wi-Fi Services in your premises.

Thanking you in anticipation,

Yours faithfully,

For Reliance Jio Infocomm Ltd.,
