Objective of the Course

The history of Indic Education is also the history of Indian civilization. Ancient education system of India was based on Spirituality. **सा विद्या या विमुक्तये** – Education provides liberation and self-realization. The learning process of the Indian education system was helpful in manifestation of inner qualities of human beings. It enabled the individual to play a useful role in the society through required personality development and character building. It used to give a real view of life and nation to the person and enabled him to overcome the challenges of the life with positivity and continue to grow in spiritual progress, as well as play an active role in the Nation Building Process. Our ancient Gurukuls were world famous for their education system. As a result of this education system of India, India was called 'Vishwaguru'.

This course helps to understand and analyse the totality of Indic education system. This 1-year Diploma program provides a comprehensive understanding of rich Indic education, its tradition, culture and history. The course will introduce you to various Indic educational institutions and their working practices. This course will introduce you to various ancient Indic thoughts and their relevance in contemporary times.

Outcome of the Course:

Learner will be able to...

- Learn about the process of ancient Indic education system
- Be aware of the contribution of the Indic education system in the development of various regions and civilizations
