**ADVANCED FINANCIAL MANAGEMENT**

---

**Objective:**

**3 credit course**

In the modern times, significance of financial management has increased many folds. Financial implications of any business decision are given more emphasize than others. After understanding the basic of financial management at the undergraduate level, there is need for studying advanced version of financial management. The objective of this course is to upgrade the students to the advanced version of financial management. In this course, the emphasize is on practical approach of theoretical concepts studied earlier. It covers all major decisions of financial management in detail. Besides, it also includes topics like mergers and acquisition and international financial management.

---
