**ELEVATION**

**SECTION AA**

**AMPHITHEATRE PLAN**

**DETAIL**

A technical drawing of a stepped profile, likely a cross-section of a mechanical part. The profile consists of a series of horizontal steps of varying widths. A dimension line on the left indicates a total height of 300 units. The drawing is rendered in a light orange color with black outlines.

This architectural elevation drawing shows a classical archway. At the top, a dome is partially visible. The archway is supported by two columns with fluted shafts and papyrus capitals. The arch itself is decorated with a keystone and side spandrels. Below the arch is a rectangular panel with a central circular motif. The drawing includes various dimension lines and numbers: 550 for the height of the arch opening, 1950 for the total height to the top of the arch, 375 and 300 for the width of the arch opening, 500 for the width of the side spandrel, 200 for the height of the capital, 50 for the width of the capital, 2595 for the width of the arch opening, and 4850 for the total height of the structure. The drawing is enclosed in a dashed rectangular frame.

Architectural elevation drawing of a classical archway. The structure features two fluted columns supporting a decorative arch. The arch is filled with a light orange color and contains a central semi-circular opening. The drawing includes various dimensions and section markers.

**Dimensions:**

- Overall height: 4850
- Overall width: 600
- Arch height (from column top): 1400
- Arch width (from column top): 550
- Arch opening height: 300
- Arch opening width: 375
- Arch opening depth: 300
- Arch opening radius: 200
- Column height: 225
- Column width: 130
- Column base width: 100

**Section Markers:**

- AA SECTION (indicated on both sides of the archway)

This architectural elevation drawing shows a section of a building facade. The central feature is a large arched window with an orange-colored frame and decorative scrollwork. The window is flanked by two columns with fluted shafts and papyrus capitals. Above the window is a decorative horizontal band. The facade is topped by a series of domes of varying sizes. The drawing includes numerous dimension lines and numerical values in millimeters, such as 1950, 760, 550, 2500, 230, 150, 155, 240, 230, 250, 315, and 255. There are also small circular decorative elements on the facade.

Technical drawing of a dome structure. The drawing shows a dome with a decorative finial on top. The base of the dome is a circular platform with a decorative border. The dimensions are as follows:

- Overall height: 3065
- Height from base to the top of the dome: 1770
- Height from base to the top of the finial: 910
- Radius of the dome: 1770
- Radius of the base: 4815
- Height of the base: 100
- Height of the decorative border: 350

Technical drawing of a circular fan with an octagonal frame. The drawing shows a central hub with eight radial spokes. The outer frame is an octagon. Dimensions are provided: the width of the octagonal frame is 4815, the width of the circular fan is 4300, and the height of the octagonal frame is 1995.

Technical drawing of the dome structure showing dimensions and components:

- 540 (Height from base to top of dome)
- METAL PLATE
- GRC DOME
- 1335 (Radius of dome)
- METAL PLATE
- 450 (Height of pedestal)
- PEDESTAL

**DOME PLAN**

**DOME PLAN  
(TYPE - 2)**

Architectural drawing of the front elevation of a column. The column is divided into three main sections: a base (1), a shaft (2), and a capital. The base is 650 wide and 150 high. The shaft is 550 wide and 4850 high. The capital is 800 wide and 1950 high. The total height is 6600. The drawing includes dimensions for the base, shaft, and capital, as well as the overall height and width.

BEHIND  
AMPHITHEATRE

Technical drawing of the column of the Amphithetre. The column features a shaft with vertical fluting, a base, a capital with a circular medallion, and a decorative entablature. Dimensions are given in millimeters.

| Dimension                     | Value (mm) |
|-------------------------------|------------|
| Total height                  | 1950       |
| Capital height                | 550        |
| Capital diameter              | 500        |
| Shaft diameter                | 800        |
| Shaft height                  | 1400       |
| Base height                   | 150        |
| Base diameter                 | 75         |
| Shaft height (excluding base) | 2820       |
| Base diameter                 | 550        |
| Base height                   | 400        |
| Base diameter                 | 648        |

**AT AMPHITHETRE**

**GRC ARCH TYPE - 2  
SECTIONAL PLAN**

**JAALI ELEVATION**

Technical drawing of a vertical assembly with dimensions. The total height is 860. The assembly consists of several layers: a base layer (125), a layer of 50, a layer of 50, a layer of 120, a layer of 120, and a top layer (120). The total height of the top three layers is 395. The total height of the bottom three layers is 125 + 50 + 50 = 225. The total height of the middle three layers is 120 + 120 + 120 = 360. The total height of the assembly is 225 + 360 + 120 = 860.
